

ALU CEILING TECHNICAL DATA

(If you need different specifications or characteristics, please contact us, relle team will serve you)

ITEM	DETAILS
Dimension	1200mm*2400mm etc...
Total thickness	4mm-25mm
Surface Treatment	PE,PVDF+Embossed
Color	Solid, metallic, wooden, marble colors
Top skin	Roller coating plate
	Aluminum alloy as base material
	Thickness of 0.15mm-1.0mm
Honeycomb Core	Hexagn aluminum honeycomb core
	Aluminum thickness of 0.04mm-0.07mm
	Aluminum highness of 4mm-7mm
Adhesive Material	Polymer film
Fire-proof level	A degree
Compressive strength	407-790
Minimum seam width	3mm
Application	Exterior wall, interior decoration project(wall/ceiling)
Features	Stable color retention
	Scratch resistance
	Excellent fire protection
	Flat surface
	Non-toxic
	Ultra high strength
	Self cleaning environment protection
	Durable
Moisture-proof
